LEGEND

- **Bold letters** - Represents the lectures
- **Italic letters** - Represents the Practical

4	Lectures will be held in the Computer room/student library
5	Lecture/practical classes will be performed at the Faculty of Natural sciences and mathematics
6	Anatomy hall
7	Microscopy classroom
8	Laboratory for chemistry and biochemistry
*	Lecture room will be defined by the professor/assistant depending of the type of the course
**	Lectures and practical classes will be performed at the Faculty for physical education, sport and health
***	The dates of the schedule provided for consultations with students can be determined by the teacher in another term that is suitable for both sides, in accordance with the Decision on the rules of integrated studies of the first and second cycle (undergraduate studies) and of the second cycle studies (postgraduate studies) of FVMS (University Gazette No. 554 of 26.07.2021)
	<p>Course teachers can adjust the schedule for lectures and exercises based on the current epidemiological situation in RNM, with the agreement of the students. Any changes made to the schedule must be communicated to the Vice dean for education Additionally, the representatives of the student years must be informed.</p> <p>If teaching occurs in accredited laboratories following ISO standards, subject teachers and collaborators are required to maintain proper records as per the established procedures.</p>

According the Decision of the Teaching Scientific Council 0202-1020/15 of 20.09.2023, course teachers are obliged to keep the records according to approved protocols for teaching, assessments, and final exams. These records should be submitted to the Vice dean for education at the end of the semester.

Course teachers are required to sign the work diaries completed by the students during practical teaching. This signature confirms the student's attendance and participation..
